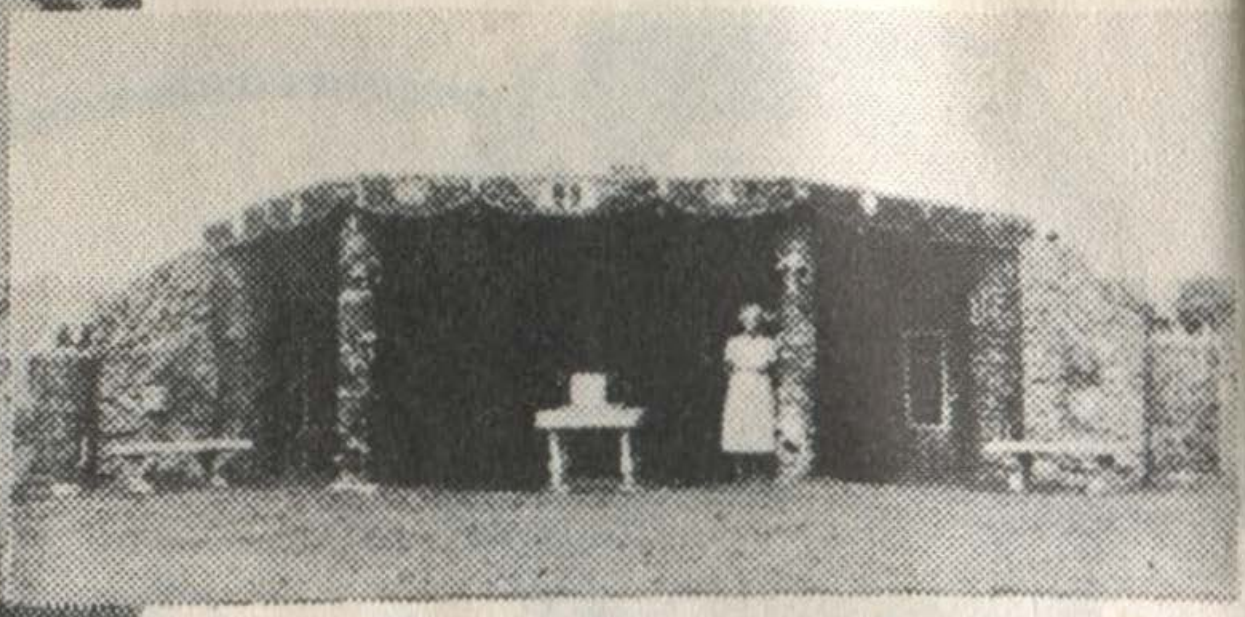
Mollie Jenson's ZOO & MUSEUM

RIVER FALLS
WIS.

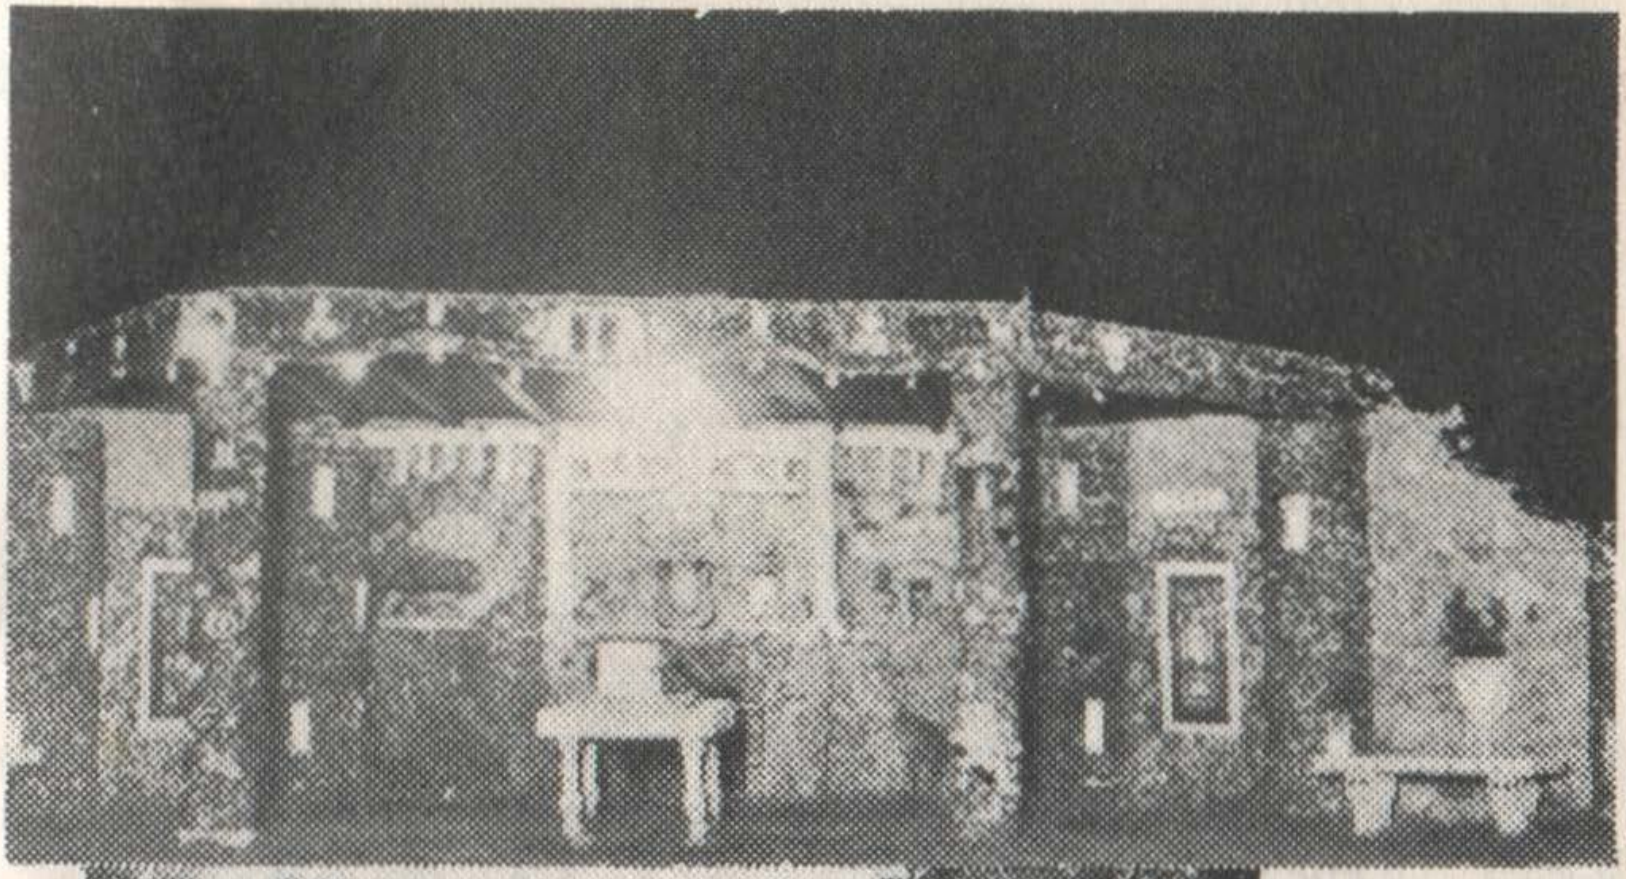
COUNTY TRUNK "M"

Digitized by Minnesota Museum of the Mississippi

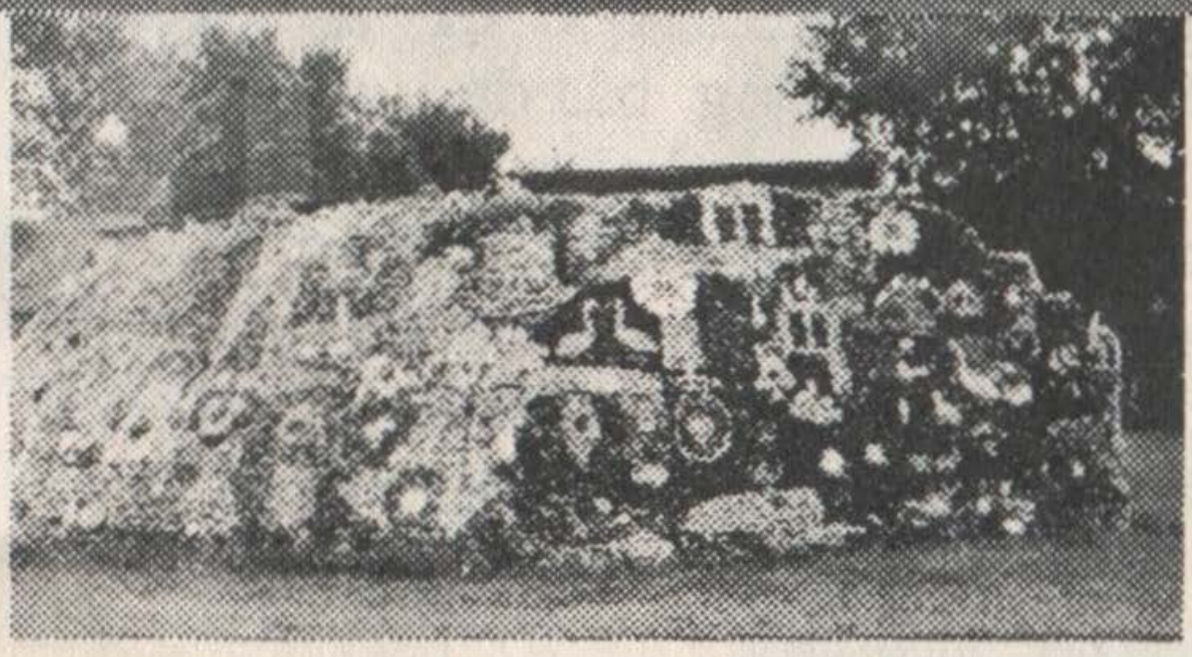


Fireplace made by
Mollie Jenson

Mr. and Mrs. Jenson standing by a lighthouse, made by Mrs. Jenson. It is made of cement, broken dishes, in design patterns of bright colors and very attractive.



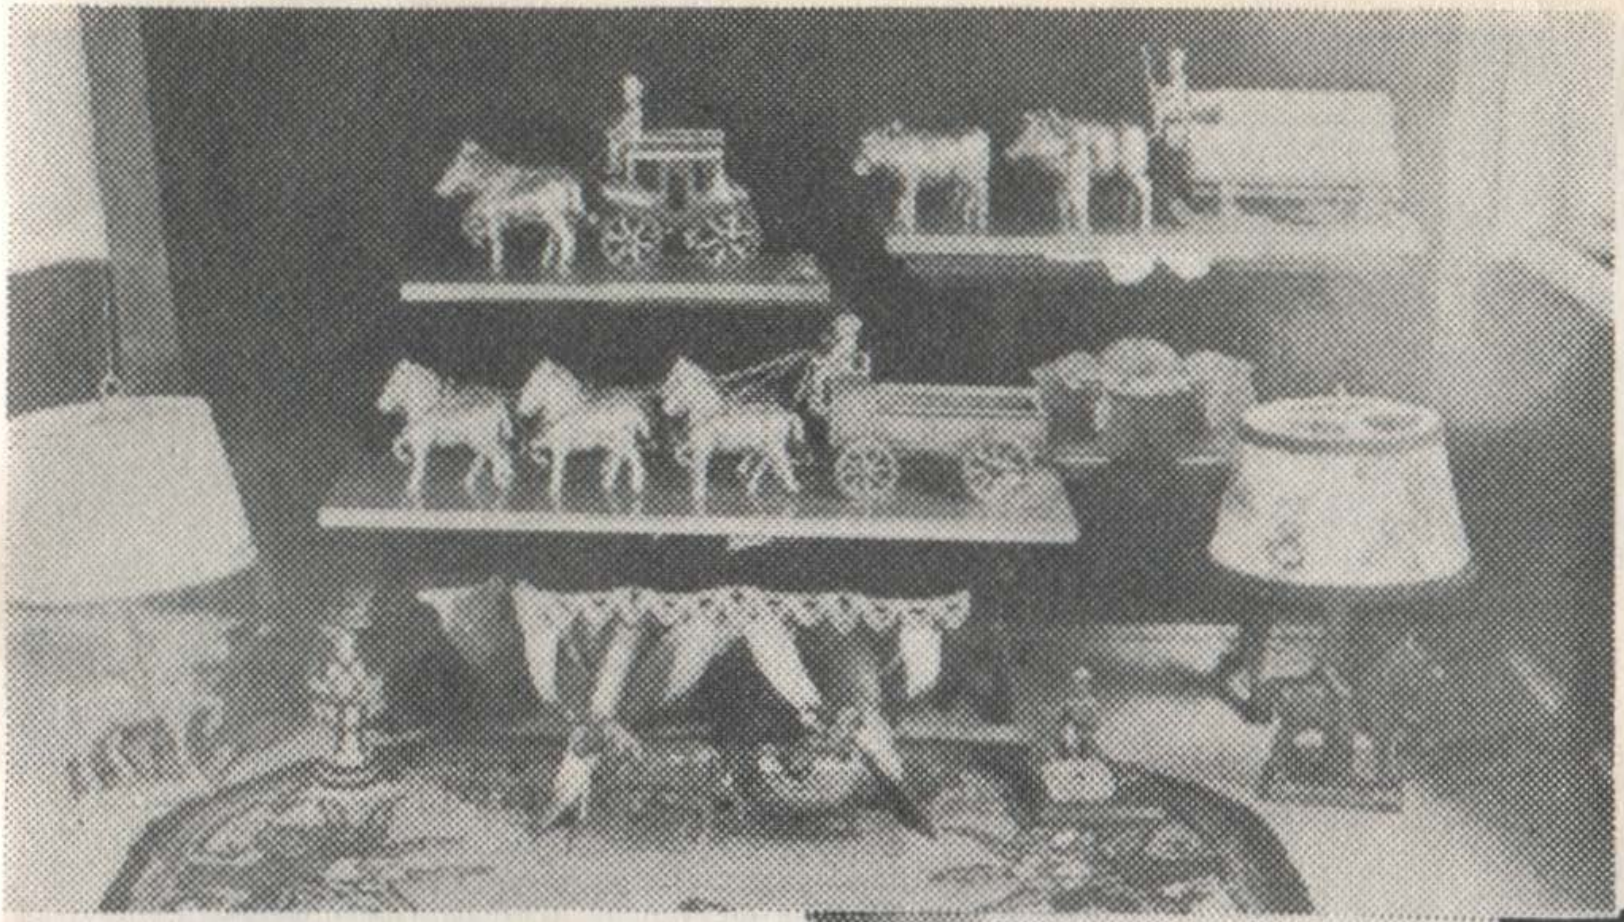
Fireplace at Night



Rear view - Fireplace

MOLLIE JENSON is the mother of six children. She was born and raised on the farm she is living on. She used to help her husband with chores and field work, but now has different hobbies and enjoys them very much.

There is a small zoo of about 75 animals, including birds, all well tamed. She does lots of different fancy needle work, wood carving and different types of hand painted pictures, done in oils, water and pastel colors; also pen and ink and charcoal.



Wood carvings, made by Mollie Jenson from a piece of butternut wood, carved with jack knife and then sand papered.

"Pals"

Another Pet

"Just in for Dinner"

Mrs. Jenson makes beautiful things from cement, rock, glass, marbles and 'most anything. The pictures in this little book will help explain it better.

Since there is no admission, she does expect a little donation to help feed the animals and keep things up, as it is quite an expense.

Thank you, and call again!
